

Postdoctoral Fellows

Amichay Afriat

Weizmann Institute of Science >> Princeton University

Amichay Afriat was awarded a Fulbright Postdoctoral Fellowship to pursue his research titled “Reconstructing the spatial properties of Cryptosporidium infection of the small intestine”. For this project Amichay intends to employ various genetic and metabolomic tools to identify key metabolic pathways used by both pathogen and host during a Cryptosporidium infection. Amichay received his B.Sc. in Biology (Etgar honors’ program) from the Hebrew University of Jerusalem and his M.Sc. in Microbiology from Tel Aviv University. Under the supervision of Professor Shalev Itzkovitz at the Weizmann Institute of Science, Amichay completed his Ph.D. by creating the first in-vivo single cell atlas of liver stage malaria, allowing him to analyze how the infection evolves over time and in different regions of the liver unique microanatomy. Furthermore, Amichay identified and characterized a previously unknown abortive infection state of the parasite which could potentially unlock avenues for new therapeutics.

Amit Aharon-Steinberg

Weizmann Institute of Science >> Cornell University

Amit was awarded a Fulbright Postdoctoral Fellowship to pursue his research project titled "Heterostructure Optical Imaging: Space-and time-resolved imaging of electronic correlations and topology in moiré materials". Amit received his B.Sc. in Physics and Biology, from the Hebrew University of Jerusalem in 2015. He completed an M.Sc. and Ph.D. at the Weizmann Institute of Science. His M.Sc. in Theoretical Condensed Matter Physics was conducted under the supervision of Professor Ady Stern and Professor Yuval Oreg. His Ph.D. in Experimental Condensed Matter Physics was conducted under Professor Eli Zeldov. Amit's Ph.D. research focused on nanoscale thermal, magnetic and scanning gate imaging of unconventional dissipation and transport mechanisms in mesoscopic systems, using a scanning SQUID-on-tip. In his postdoctoral studies, he aims to develop a space-and time-resolved optical imaging technique that will map the chemical potential and Maxwell's relations in 2D moiré quantum materials. He will use this imaging technique to elucidate the underlying mechanisms giving rise to the reach and intricate physics of correlated electronic states in moiré quantum materials.

Elnatan Chen

The Hebrew University of Jerusalem >> Johns Hopkins University

Elnatan was awarded a Fulbright Postdoctoral Fellowship to pursue his research project titled “Biblical Hebrew Grammar and Biblical Exegesis in the Middle Ages: From Islam to Christianity”. Elnatan completed his BA, MA (cum laude), and PhD in the Department of Hebrew Language at the Hebrew University of Jerusalem. His dissertation, conducted under the supervision of Israel Prize winner Professor Aharon Maman, is titled “Studies in the Linguistic Thought of R. Jonah ibn Janāḥ”. Elnatan is an expert in Biblical Hebrew and in Medieval Hebrew philology and grammar, particularly focusing on the Andalusian works written in Judeo-Arabic. Throughout his studies, Elnatan earned numerous distinctions and scholarships, including the President’s Stipends – PhD Honors Program (2017–2021), the Warburg Scholarship (2020), the Ephraim Urbach Post-Doctoral Fellowship (2023), and the Kreitman Post-Doctoral Fellowship at Ben-Gurion University (which he declined). Currently, he is teaching in the Department of Hebrew Language at the Hebrew University as a Ben-Yehuda Post-Doctoral Fellow.

Noam Cohen

The Hebrew University of Jerusalem >> Yale University

Noam Cohen was awarded a Fulbright Postdoctoral Fellowship to pursue his research project titled “A Phenomenology of the Cosmos: Husserl and Heidegger and the rupture between the ancient and the modern conception of the universe.” This project explores the ways in which the philosophical movement of phenomenology confronts pressing philosophical problems by reflecting on ancient Greek accounts of the cosmos. It is part of a broader interest in the possibilities that ancient thought offers for reevaluating issues of contemporary concern. Noam completed a BA in philosophy and art history, and an MA in philosophy, both summa cum laude, at Ben-Gurion University of the Negev. He pursued his PhD dissertation in the Department of Philosophy at the Hebrew University of Jerusalem and received the Nathan Rotenstreich Scholarship from the Israeli Council for Higher Education. During this period, Noam was also a guest researcher at the Husserl Archive at the Albert Ludwig University of Freiburg. His work has received recognition through various distinctions, including a fellowship at the Sydney M. Edelstein Center for the History and Philosophy of Science, an Arthur Fried Memorial fellowship at Shalem College, and the Ted Kiesel Junior Scholar Award presented by the Heidegger Circle of North America.

Yuval Eytan

Tel Aviv University >> Columbia University

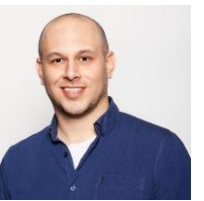

Yuval Eytan was awarded a Fulbright Postdoctoral Fellowship to pursue his research titled "A Constructive Critique of the Dialectical Aspect of the Second Wave of Positive Psychology". Yuval earned his Ph.D. in philosophy at Tel Aviv University with professor José Brunner as his supervisor. His main argument is that the transition from the ideal of happiness to the ideal of authenticity represents a deep and broad transformation in Western philosophy. While in the ideal of happiness freedom is conceived as a means of liberation from suffering, within the framework of the concept of authenticity, freedom is achieved as an open process of self-enrichment since the subject is understood in terms of striving not for satisfaction but rather for infinite processes of creative development. In his postdoctoral studies, Yuval aims to develop, via Kant, Hegel and Marx, a critique of the broad hypothesis in positive psychology according to which loyalty to and uncompromising fulfillment of the inner self will inevitably lead to happiness.

Bnaya Gross

Bar Ilan University >> Northeastern University

Bnaya Gross received his B.Sc. in Computer Science during high school at the Jerusalem College of Technology (JCT). He shifted to physics and received his B.Sc. in physics from Bar-Ilan University (BIU). He continued in the joint M.Sc. and Ph.D. track under the supervision of Professor Shlomo Havlin, an Israel Prize winner, in the Physics Department at BIU. Bnaya's research focuses on interdependent physical networks, where physical networks such as magnetic networks or superconducting networks interact with each other. After a decade of theoretical research, Bnaya and his colleagues showed, for the first time, how to perform lab experiments on interdependent physical networks to validate theoretical predictions of novel phase transitions and critical phenomena. During his studies, Bnaya won several distinctions, including the Katz fellowship, and the BIU Rector's award for graduate students. In the proposed project, Bnaya seeks to apply the interdependent networks paradigm in network medicine to improve our understanding of disease mechanisms by analyzing the interactions between biological networks in the human cell.

Ori Hacohen

The Hebrew University of Jerusalem >> Rutgers, The State University of New Jersey

Ori Hacohen was awarded a Fulbright Postdoctoral Fellowship to pursue his research project titled: "Representation and Intentionality in the Cognitive Sciences". Cognitive researchers often posit the existence of internal brain structures or states which carry content or information. Such states are normally considered "representations". Ori's research project aims to define a unified notion of representation in the cognitive sciences, while exploring how such a notion can relate to our understanding of mental intentionality. Ori received his B.Sc. in Mathematics and Cognitive Science, as well as his M.A. and Ph.D. in Cognitive Science, from the Hebrew University of Jerusalem. He continued to a postdoctoral fellowship at the Sidney M. Edelstein Center for the History and Philosophy of Science. During his Ph.D., Ori received the 'President's Stipend for honors doctoral students' from the Hebrew University, the 'Doctoral Scholarship for Excellent Students' from the Edelstein Center for the History and Philosophy of Science, and the 'Yael Cohen Prize' from the Department of Philosophy. Ori's Ph.D. dissertation, titled "What Are Neural Representations?", received the Allan Bronfman Prize for outstanding doctoral dissertation in the humanities, social sciences or law.

Qais Jaber

Tel Aviv University >> Princeton University

Qais Jaber was awarded a Fulbright Postdoctoral Fellowship to pursue his research titled: "Activity-based profiling of RNA-modifying enzymes in pathogenic bacteria" at Princeton University. In this project, his goal is to apply chemical biology approaches such as the RNABPP workflow with different activity-based nucleoside probes in pathogenic bacteria in order to characterize their complement of RNA-modifying enzymes and identify the role of these enzymes and related modifications in cellular physiology and morphology. This project will provide the first unbiased profiling of RNA-modifying enzymes in pathogenic bacteria and will reveal fundamental insights into their biology and provide opportunities for the development of the next generation of antibacterial agents. His PhD research at Tel Aviv University focused on the development of novel chemical approaches and new molecular tools to be used as probes for the study of the mechanism of action and the prediction of drug resistance of antibacterial and antifungal agents.

Noy Naaman

University of Toronto >> Yale University & Berkeley University

Noy Naaman was awarded a Fulbright Postdoctoral Fellowship to pursue his research project titled "Timing Reproductive Justice". The research explores how time is operated as a condition under which norms in the context of reproductive rights are negotiated.

Noy holds degrees in law from Columbia Law School as a Human Rights Scholar (LLM) and from Tel Aviv University (LLB). His PhD research, conducted at the University Of Toronto's Faculty Of Law, applies a spectrum of queer methodologies to better understand the law as it pertains to human reproduction. During his PhD studies, Noy was awarded a number of scholarships, including the Ontario Trillium Scholarship and Graduate Fellowship in Reproductive Rights, alongside awards, such as the Sarah Weddington Writing Prize for scholarship in reproductive rights and the ICON-S-IL Prize for Outstanding Research.

Golan Shalvi

University of Haifa >> University of Chicago

Golan Shalvi was awarded a Fulbright Postdoctoral Fellowship to investigate "The Late Bronze Age in Southern Phoenicia as reflected at Tel Shiqmona and its coastal temple." This study aims to analyze the site's stratigraphy/architecture and material findings, in order to understand LBA processes of change in socio-political, religious, and cultural systems in the region, as well as their apparent collapse and the subsequent generation of other systems in the Iron Age.

Golan Shalvi is a research associate at the Zinman Institute of Archeology and a postdoctoral student at Ben Gurion University of the Negev. His postdoctoral research focuses on Tel Shiqmona's purple dye industry, which was the largest and most important in the Iron Age Levant. Shalvi's Ph.D. reconstructed Tel Shiqmona's Iron Age occupation and regional and interregional significance (ca. 1100–600 BCE), and he was awarded the Rotenstreich Humanities Ph.D. Scholarship. His MA thesis focused on the Late Bronze Age at Tel Esur on the Sharon Plain on the ancient Via Maris. Shalvi has participated and supervised various excavations and conducted large-scale stratigraphic and ceramic typology studies during these excavations and his degrees. He has also examined pottery using petrography and microbeam techniques.

Nahed Sharary

Ben-Gurion University of the Negev >> NYU-New York University

Dr. Nahed Ashqar Sharary is a lecturer in social work in the gender studies program at Ben Gurion University of the Negev and a faculty member at the Mandel Center for Leadership in the Negev.

In December 2022 Nahed completed her doctorate, "Religious Identities among Muslim Women in Israel in the Context of Family, Society and State" at Ben Gurion University. In 2020, she was awarded the Dan David Prize for academic excellence and another local award for her research contributions in Israel and around the world.

Haneen Shibli

Ben-Gurion University of the Negev >> University of Washington

Haneen Shibli's project is titled "Access to care among Muslim Arabs in the United States". Her research will identify the health needs of Muslim Arabs in the U.S., This study also aims to explain, based on the intersectionality approach, the relationship between social determinants of health and the utilization patterns of healthcare services among different subgroups of Muslim Arabs living in the U.S.

Haneen completed her Ph.D. in the School of Public Health at Ben-Gurion University of the Negev (BGU). Her Ph.D. research, under the supervision of Professor Limor Aharonson-Daniel and Dr. Paula Feder-Bubis, focused on the accessibility of healthcare services among the Arab Bedouin community in Israel, particularly among Israel's most disadvantage group, the Arab Bedouin women. The research centers on social matters and gender issues and uses the sociological model of intersectionality and the framework of social determinates of health. Haneen has recently been leading research projects regarding COVID-19 among the Arab population in Israel and climate change, community resilience, quality of life related to health and access to digital health among the Arab Bedouin minority in Israel. She is very interested in strengthening the public health among minorities with particular emphasis on health inequalities and policies for narrowing these inequalities. Additionally, Haneen also holds a position as a research manager at The Azrieli Faculty of Medicine at Bar-Ilan University.

Reut Zabag

Bar-Ilan University >> Yale University

Reut Zabag was awarded a Fulbright Postdoctoral Fellowship to pursue her research titled “Deficits in flexibility as a risk factor for the interplay between social anxiety and depression” at Yale University. Reut is interested in understanding the role of cognitive flexibility in the temporal unfolding of emotional distress and specifically in the interplay between social anxiety and depression.

Reut received her BA in Psychology and Economics (Magna cum laude) from Bar-Ilan University. She received her MA in Child Clinical Psychology (Summa cum laude) from the Hebrew University of Jerusalem. In her PhD studies, Reut examined the relationship between social anxiety and cognitive flexibility under the supervision of Professor Eva Gilboa-Schechtman and Professor Einat Levy-Gigi. While studying at Bar-Ilan University, she received the Rector prize for excellence and the Presidential scholarship award.

Hadas Zur

Tel Aviv University >> Harvard University

Hadas Zur was awarded the Fulbright Postdoctoral Fellowship to pursue her research on “Violent events in the Digital City: Practices, Values, Transformations”. The project examines violent encounters between opposing political groups in three cities worldwide and explores the interrelations between the digital and the spatial in the acceleration of violence.

Hadas holds an MA in sociology and anthropology from Tel Aviv University. She completed her Ph.D. research in the Department of Geography and Human Environment at Tel Aviv University. Her Ph.D. research focused on urban violence in the digital age. During her PhD Hadas was a fellow in the Laboratory of Contemporary Urban Design at Tel Aviv University where she coordinated a large research on smart cities and participated in a research on poverty and urban regeneration. She served as the editor of the Journal and Podcast Urbanologia (2016-2023).

Rhona Burns

Bar-Ilan University >> Harvard University

Rhona Burns was awarded a Fulbright Postdoctoral Fellowship to pursue her research project titled “Tracing the inner roots of Israeli Conservatism.” She received her B.A and M.A in Hebrew Literature from the Hebrew University of Jerusalem. She then spent some years as an editor, writer and journalist, before continuing to write her PhD dissertation at the Israel and Golda Koschitzky Department of Jewish History and Contemporary Jewry at Bar-Ilan University, as a PhD Presidential fellow. In 2023 she completed her doctorate, which focused on the formation of Jewish nationalism in light of ideas of class and status. Rhona’s focus of research is centered on investigating the influences of bourgeois civilization on the modern Jewish national idea. This perspective showed the relative dominance of conservative and moderate-liberal outlooks compared to radical, political and social approaches at that time. As a postdoctoral fellow, Rhona intends to expand her investigation on this dominance and its political and intellectual implications for the creation and development of the modern Jewish national movement.

Master's Degree Fellows

Maya Gayer

Tel Aviv University >> Columbia University

Maya Gayer is a content creator and editor with vast experience in the media field, specializing in making academic knowledge accessible to the general public. Before receiving the Fulbright grant, she worked as a senior director of programming and editor at Galei Zahal radio, serving for the past seven years as editor-in-chief of “Ha-Universita Ha-Meshuderet”, and co-editor of the program's book series. In the past few years, she also held the position of director of the Persitz Program in arts management at the Tel Aviv–Jaffa Municipality and head content editor of the science documentary series “The Future is Already Here” aired on KAN (the Israeli Public Broadcasting Corporation). Additionally, Maya was an adjunct professor and lecturer for a podcasting workshop at Sapir Academic College and the University of Haifa.

Maya received an MA (magna cum laude) and a BFA (summa cum laude) in film and television studies from Tel Aviv University. Maya was awarded the Fulbright fellowship in Public Humanities to pursue an MA in oral history at Columbia University.

Dana Golan

Tel Aviv University >> George Washington University

Dana Golan's career has encompassed academic study to a career in multidisciplinary art and work in informal education. Following a master's degree in art history at Tel Aviv University, Dana served for more than a decade as the manager and curator of a distinguished private art collection. She has also led art education activities and art-tours and delivered lectures at various cultural institutions and schools.

Dana was awarded the Fulbright fellowship to pursue her master's degree in museum education studies, which relates to public engagement and visitor experience. She hopes to promote access to art content, to diverse audiences, and fostering space design and educational collaborations between museums and other cultural institutions.

Yara Haidar

Tel Aviv University >> University of Pennsylvania

Yara Haidar received her LL.B. in law and B.A. in psychology from Tel Aviv University. After graduating, Yara practiced as an intern and then as an attorney in the litigation department at Herzog Fox & Neeman for two and a half years. For the past two years, Yara has worked in the litigation department of Dan-Hay & Co. Law Firm, where she represented and consulted leading companies and individuals in class action disputes, data protection, and privacy. During her studies, Yara worked as a research assistant, and as coordinator and tutor at The Academic Tutoring Program for law students.

Yara was awarded the Fulbright fellowship to pursue her LL.M. degree at the University of Pennsylvania.

Tom Koren

Tel Aviv University >> School of Visual Arts, New York

Tom Koren graduated from Tel Aviv University with a bachelor's degree in art history and English literature, Summa Cum Laude. While studying she served as an artistic director, curator, content writer and music journalist at various cultural institutions. Since her graduation she has been working as a digital marketing manager and content creator for Teder.FM.

During her MA studies Tom aims on expanding her experience in the music scene and crossing over to the visual art field, focusing on the intersection between the two. She will explore the possibilities of curating multi-disciplinary events and live, participatory art as a way of keeping art fresh, cutting-edge and forward-thinking, while also creating unique platforms for human encounters, as a means of bringing different communities closer together. During her Fulbright fellowship, she will pursue an MA in curatorial studies at the School of Visual Arts, New York.

Shadi Omar

Tel Aviv University >> Columbia University

Shadi Omar holds a BA in archeology and ancient Near Eastern cultures from Tel Aviv University and a teaching certificate in Land of Israel studies from Beit Berl College.

Shadi aspires to contribute to the development in the field of heritage of residents of the area and especially in Arab society, the tangible and intangible heritage, connecting it to the global context, - the cultural heritage of humanity, to help local communities tell their own story, which is everyone's story. Shadi's ambition is to establish creative museums and exhibitions in cooperation with local society, to preserve the history of the past for the betterment of present and future generations.

Shadi was awarded the Fulbright fellowship to pursue an MA in museum anthropology at Columbia University.

Hamad Swaid

Tel Aviv University >> Harvard University

Hamad Swaid worked at Gil Ron, Keinan & Co., a leading class action law firm in Israel, as a student, an intern, and later as an associate. As an associate, he led large-scale complex litigation and innovative class action cases in various domains, including commercial law, discrimination, and environmental protection. Aside from his work as a lawyer Hamad worked as a teacher's assistant and research assistant in the various areas of law,. He is also researching the laying of internet infrastructure in Israel and its effects on marginalized groups.

Hamad holds a Bachelor of Law from Tel Aviv University. Hamad was awarded the Fulbright fellowship to pursue her LL.M. degree at Harvard University, focusing on researching the interaction between law, politics and technology.

Samah Wattad

Oranim Education College >> George Washington University

Samah Wattad, a journalist, completed her BA in journalism & sociology at Oranim College of Education in 2016. She was among the 70 students who were selected for her significant contribution to society in 2022. Samah has worked for various local and international media outlets, serving as a news editor and reporter at Nas radio station and a TV reporter for the Musawah Channel, as well as working as an investigative journalist at KAN Israeli Public Broadcasting Corporation in the past. Her coverage on political and economic news, particularly women's roles in both fields, has been notable. Samah's passion for volunteering led her to participate in the youth newsroom covering the World Press Freedom Day conference in Ghana in 2018, as part of the UNESCO Middle East NET-MED Youth project. She is also an active board member of the Tishreen Association for activism and empowerment.

Samah was awarded the Fulbright fellowship to pursue her MA in communication management at George Washington University.

Yael Zeldman Haviv

Ruppin Academic Center >> Harvard University

Yael Zeldman Haviv received her BSc in marine sciences & marine environment from Ruppin Academic Center. Her MSc in zoology, ecology and environment at Tel Aviv University (graduated Magna Cum Laude) focused on the marine environment in the Gulf of Eilat. At that time, she was also a teaching assistant at several academic institutes. Later in her professional career, Yael did a fellowship program for environmental leaders at Heschel Center for Sustainability and a directors' course at Bar-Ilan University.

As former head of the Environmental Department at the Arava Regional Council and a current head of the Desert Floods Research Center at the Dead Sea and Arava Science Center, Yael searches for options to enhance sustainability agendas among decision-makers and contribute to life-changing environmental resolutions. .

Yael was awarded the Fulbright fellowship to pursue a mid-career MA in Public Administration at the Harvard Kennedy School to pursue her career in environmental policy leadership.

Inbar Chityat

Technion - Israel Institute of Technology >> Massachusetts Institute of Technology (MIT)

Inbar Chityat graduated summa cum laude from the Technion with a BSc. in mechanical engineering, specializing in control and robotics, and was a member of the "Reamim" excellence program. During her studies she led a multidisciplinary team in the Biodesign Israel HealthTech innovation program and became a mechanical design instructor in the program's technological team.

Inbar has been working as a control systems engineer in the electro-optic division of Elbit Systems (Elop) for the past two years. In her previous role, Inbar was part of the R&D department at Via Surgical, a medical startup developing fixation solutions for hernia repair and before that part of the SCALPEL lab in the Technion, focused on evaluating clinical performance using sensors. Inbar was awarded the Fulbright fellowship to pursue her MS in mechanical engineering at MIT.

Hubert H. Humphrey Fellow

Daphna Tish-Feigenboim

Ministry of Agriculture and Rural Development >> University of California, Davis

Daphna Tish-Feigenboim serves as a senior legal adviser within the Ministry of Agriculture and Rural Development in Israel. As such, she leads a legal team, providing counsel within the Ministry, including the Center for Foreign Trade and International Cooperation, Plant Production Boards, Plant Protection and Inspection, Fisheries, and Aquaculture. Daphna's purview encompasses both legal, economic, and social matters and includes formulating and designing policies, driving professional reforms, initiating and spearheading legislative processes, as well as fostering inter-ministerial collaborations and projects.

Daphna holds a bachelor's degree in law and Sociology and Anthropology (LL.B.) from the Hebrew University of Jerusalem, and a master's degree in public law (LL.M.) from the Executive International master's Program in Public Law, jointly offered by Tel Aviv University and Northwestern University (both with honors). As a Hubert H. Humphrey fellowship recipient at UC Davis, Daphna aims to enhance her knowledge in public policy, decision analysis, and economics to foster cross-sector cooperation and develop comprehensive regulatory frameworks for sustainable agricultural plans, with a primary focus on food security in Israel.

International Writing Program Fellow

Orit Gidali

University of Iowa

Orit Gidali was awarded a Fulbright International Writing Program fellowship at the University of Iowa, to complete her fifth book of poetry, temporarily titled: "54 km of Lead".

Orit is a poet, a picture-book writer and an editor. She is the co-founder and a teacher in 'Sadnaot Habait' the largest creative writing school in Israel. Her poetry books include: The Towers (2021), Deathbed (2015), Closing In (2009), Twenty Girls to Envy Me (2006), and Twenty Girls to Envy Me - a Hebrew-English Bilingual Edition of Collected Poems (2017) translated and introduced by Marcela Sulak. The book was longlisted for the Pen America Literary Award for poetry in translation 2017. Gidali's picture books include - Kind of a Unicorn (2019), People Touched the Moon (2018), Nora and the Magic Eraser (2015), Nora the Mind Reader (2011). Her picture books have been translated into 11 languages. In 2022 she was awarded the Dvora Omer Award for children's writing.

Distinguished Awards in Teaching Program for International Teachers

Roey Perlstein Dvir

Tel Aviv University >> University of Rochester

Roey Perlstein Dvir holds an MA in political science and is currently working on his PhD at Tel-Aviv University on the subject of democracy and education. Roey is also a civics and history teacher at the Branco Weiss High School in Beit-Shemesh.

Roey was selected to participate in the Fulbright Distinguished Awards in Teaching Program for International Teachers (Fulbright DAI) at the University of Rochester.

Foreign Language Teaching Assistant Fellows

Mais Nassar

Hebrew University of Jerusalem >> Florida State University

Mais Nassar received her BA from The Hebrew University of Jerusalem with a double major in English and romance studies. where she also completed her MA in conflict management and resolution. Mais will be teaching Arabic at Florida State University in 2023-2024.

Due to her interest in languages and cultures Mais participated in many exchange programs in various roles. She worked as an Arabic teacher and program coordinator for international students at The Hebrew University and then as an English teacher in a bilingual school for Arab and Jewish students and as a program manager in a non-profit organization for refugees. Mais believes that language is a key to communication within a nation, and she is working towards making a change in language teaching.

Hanan Qaddah

University of Haifa >> University of New Hampshire

Hanan Qaddah received her MA in English language and literature from the University of Haifa.

Hanan has been teaching English for the past eight years in different schools in the Arab sector, working with students from all levels.

Salwa Kaiyal

Bar-Ilan University >> Bard College

Salwa Kaiyal received her B.A. in social science from Bar-Ilan University in 2018, and her M.A. in conflict management and negotiation from the same institution in 2020. Over the past two years, she has been working with the business sector, providing guidance and advice in the area of diverse recruitment. She has also been working with talented individuals from the Arab community, helping to improve the candidate's experience as a DE&I Senior Talent acquisition. Salwa is a social activist and volunteers as a mentor for students who are looking for job opportunities in the high-tech sector
